Citrix Assessment, Architecture and Design

IT Solutions Citrix Assessment provides your IT team with detailed analysis and recommendations designed to improve your use of Citrix technologies. The Citrix Assessment begins with a determination of your organization's strategic business and technical objectives. This is accomplished through a series of interviews with key business and technical resources beginning the first day on-site.

Upon completion of the interview phase, our team of IT Solutions consultants will complete a comprehensive analysis of the key infrastructure areas that impact the performance and scalability of your existing or planned server-based computing environment including such areas as:

- Hardware
- Applications
- Printing
- Operating Systems
- Network
- Citrix MetaFrame® Servers
- Client Devices
- Testing
- Change Control
- Support Structure
- Systems Management

Since 2000 IT Solutions has been a leading technology services company. With deep industry expertise and proven experience in consulting and outsourcing, IT Solutions can mobilize the right people, skills alliances and technologies for your Citrix Solutions.

- Training
- Security
- Backup
- Disaster Recovery

Leveraging our many years of experience with server-based computing, the IT Solutions' Citrix Assessment will detail the key findings as well as identify risks, action items, and areas for improvement. Upon completion of the Citrix Assessment, the IT Solutions team will meet with your management team to review the results and confirm the achievement of the engagement objectives.
