

Penetration Testing

What Is Penetration Testing?

IT Solutions Penetration Testing service is an extremely comprehensive look at all Internet accessible devices. This approach is designed to provide a "Hacker Level" view of these devices. This test will assist the security administrator to discover known vulnerabilities that can cause serious business problems.

Service Covers:

- Foot Printing
 - Discovery of domain names, IP addresses and administrative contact
 - Trace route and various tools for location and range determination
- Scanning
 - Port Scanning
 - Range Scanning
 - Automated scanning tools
- Penetration
 - Use of publicly available tools for penetration analysis
 - System scanning for vulnerability
- Denial of Service (only performed if desired)
 - Susceptibility tested. No full attacks unless requested
- Privilege Escalation

Since 2000 IT Solutions has been a leading technology services company. With deep industry expertise and proven experience in consulting and outsourcing, IT Solutions can mobilize the right people, skills alliances and technologies for your Penetration Testing.

Why use ITS?

IT Solutions is a leading technology services company. Committed to delivering innovation, ITS collaborates with its clients to help them realize their visions and create tangible value. With deep industry expertise, broad resources and proven experience in consulting and outsourcing, IT Solutions can mobilize the right people, skills, alliances and technologies for your Penetration Testing. More than 80 percent of our work is with clients whom we've served before.

Our approach is to deliver innovation to clients by leveraging our industry knowledge, service offering expertise and insight into and access to emerging technologies. With this comprehensive approach, we are able to move clients forward in their business, from strategic planning to day-to-day operations. This often includes helping clients identify and enter new markets, increase revenues in existing markets, and deliver their products and services more effectively and efficiently.
